

BIMcontact

BIMcontact is a cloud based document management solution for all types of projects and organizations, complete with automated document flow, cloud storage, Desktop Drive app for local sync, a mobile app and a unique IFC-viewer for access of BIM models right from the web!

BIM models and drawings can be viewed directly in BIMcontact without any extra programs. You only need a web browser.

IFC-viewer
BIM & CAD

Synchronize your local files with the cloud, for offline work and easier file management of large files with the addition of the BIMcontact Desktop Drive.

Desktop
Drive
